

APPLICATIONS DEVELOPMENT AND SUPPORT JOB FAMILY

CAREER PATH

Applications Development Manager

A position at this level is accountable for the development, enhancement, and maintenance of application systems of moderate complexity and risk/impact for assigned organizational areas. Employees may be accountable for multiple applications and applications development and supervise a medium or large support team. This position manages vendor relations for less complex applications. Specialized positions at this level perform highly complex assignments involving multiple small applications or a large application. Employees are accountable for application security, validation, evaluation, and implementation. This position works on and solves highly complex problems where analysis requires in-depth evaluation of various factors. Employees also provide highly complex technical support in relevant fields of discipline. This position may also be accountable for serving as project lead and/or providing technical direction to lower-level team members.

Knowledge, Skills, and Abilities

In addition to those identified in the previous levels within this career path:

Comprehensive working knowledge of and the ability to demonstrate successful use of programming languages, computer equipment, and associated software/databases in the performance of duties.

Comprehensive working knowledge of and the ability to demonstrate understanding of all assigned areas of applications development and support, as well as the laws, principles, and practices as they are related to implementation within the agency.

Comprehensive working knowledge of and the ability to demonstrate understanding and successful interpretation, explanation, and application of the principles and practices of supervisory and management techniques in the performance of duties.

Comprehensive working knowledge of and the ability to demonstrate understanding of the agency's policies, procedures, rules, and regulations in the performance of duties.

Comprehensive working knowledge of and the ability to demonstrate understanding and successful use of the principles and practices of project management techniques in the performance of duties.
