

Classification: Criminalist I - DNA Casework

Title Code: V00517

Pay Range: 20

POSITION SUMMARY:

This is an entry level position where the employee performs technical work in the scientific analysis of body fluids. An employee in this position participates in a formal and on-the-job-training program. Work is performed under immediate supervision.

DESCRIPTION OF DUTIES PERFORMED:

(Any one position may not include all of the duties listed nor do the listed examples include all tasks which may be found in positions of this class.)

Under close supervision an employee:

Regularly examines and analyzes submitted criminal evidence for the presence of body fluid samples (e.g., blood, semen, vaginal secretions).

Regularly examines forensic evidence that may be soil laden, maggot infested, putrefied, rank, and/or otherwise unpleasant.

Confers with supervisor to determine which items are most likely to associate or disassociate the victim or suspect with a crime scene.

Confers with supervisor reference the appropriate test methodology based on the quantity and quality of the submitted sample.

Regularly works with a variety of potentially hazardous materials (e.g., HIV, hepatitis, and/or unknown pathogen contaminated body fluid evidence; unidentified chemicals on evidence).

Performs complex scientific techniques including, but not limited to, DNA PCR analysis, semen and blood identification, species determination, etc.

Participates in formal and on-the-job training in the scientific analysis of body fluid samples.

Interprets test results obtained from the proper microscopic and biochemical methods.

Observes other criminalists conducting crime scene investigations; participates in the investigations as needed upon approval of the supervisor.

Routinely testifies as an expert witness in a court of law while maintaining composure under intense cross-examination.

Prepares evidence and exhibits; maintains report files; issues periodic and special reports.

Generates and receives requests to and from other law enforcement agencies, prosecutors, attorneys, etc., reference criminal evidence and crime laboratory procedures.

Classification: Criminalist I - DNA Casework

Title Code: V00517

Pay Range: 20

Studies and assists in revising standard operating procedures, training, quality control, and safety manuals, etc., within the chosen/related discipline.

Learns about and participates in the proficiency testing program sections.

Operates standard office equipment (e.g., personal computer, telephone, fax machine, copier, etc.).

Participates in the proficiency-testing program for the section.

Participates in and successfully passes practical competency and/or written test(s) prior to assuming casework.

Performs job-related travel, as needed.

Performs other related duties as assigned.

REQUIRED KNOWLEDGE, SKILLS, AND ABILITIES:

Ability to participate in a formal on-the-job training.

Ability to learn the procedures and methods used in the scientific analysis of body fluids.

Ability to communicate in English clearly and concisely, both orally and in writing.

Ability to confer with supervisor and be guided in the decision-making process.

Ability to work with potentially hazardous and/or decomposed materials as detailed in the description of duties.

Ability to generate and receive requests for information from a variety of individuals reference forensic science.

Ability to discuss graphic topics with competence, impartiality, and professionalism.

Ability to learn and practice safety rules and procedures associated with laboratory equipment and chemicals.

Ability to learn about the compilation and preparation of evidence for presentation in court and the role of an expert witness in legal proceedings.

Ability to perform work in accordance with prescribed procedures, make accurate observations of test results, and prepare accurate records and reports.

Ability to gather, assemble, correlate, and analyze facts to be incorporated into a report of laboratory work and tests.

Ability to maintain composure while under cross-examination in regard to personal and scientific qualification and defend laboratory finding in court.

Ability to work with highly sensitive information in a confidential and professional manner and maintain the information as such.

Classification: Criminalist I - DNA Casework

Title Code: V00517

Pay Range: 20

Page 3

Ability to distinguish color necessary to perform laboratory tests.

Ability to perform microscopic work for extended periods.

Ability to examine forensic evidence and recognize and identify minute details.

Ability to stand for extended periods and lift moderate loads (30 pounds).

Ability to establish and maintain effective working relations with others.

Ability to properly use laboratory equipment, photography equipment, standard office equipment, and chemicals.

Ability to assist in developing methods and/or techniques to upgrade laboratory capability.

Ability to transport tools, equipment, and evidence necessary to facilitate crime scene investigations.

Ability to perform job-related travel (e.g., appearing in court, facilitating crime scene investigations, and attending training meetings, seminars, etc).

Ability to participate in and successfully pass practical and/or written competency test(s) prior to assuming casework.

Ability to assist in educating individuals reference forensic science.

Ability to study and revise manuals.

Ability to work with material that may be of a sexual nature relating to criminal activity (e.g., written material, photographs, and/or verbal language, etc.).

Ability to work hours as assigned.

MINIMUM EXPERIENCE AND EDUCATION REQUIRED:

(The following represents the minimum qualifications used to accept applicants, provided that equivalent substitution may be permitted in case of deficiencies in either experience or education.)

Possess a bachelor's degree (or its equivalent) or an advanced degree in a biology, chemistry or forensic science related area; coursework must include 20 semester hours in biology and shall have successfully completed college course work (graduate or undergraduate level) in biochemistry, genetics, and molecular biology totaling at least nine semester or equivalent credit hours. These courses must comply with the current FBI Quality Assurance Audit Document. Coursework and/or training in statistics and population genetics are recommended. A minimum acceptable grade of C or equivalent in the core biology courses is required.

NECESSARY SPECIAL REQUIREMENTS:

Must provide a DNA sample to be used only for forensic identification as required at the time of appointment.

Must be able to pass a polygraph examination after conditional offer of employment.

Classification: Criminalist I - DNA Casework

Title Code: V00517

Pay Range: 20
