

SPECIALIZED TRADES AND CONSTRUCTION JOB FAMILY

CAREER PATH

Specialized Trades Supervisor

This is a supervisory-level position specializing in areas such as: electrical; heating, ventilation, and air conditioning (HVAC); electronics; carpentry; concrete and masonry; welding; plumbing; and/or painting. Duties include oversight of construction, remodels, maintenance, or replacement for state buildings or facilities. This position provides assistance in more complex projects and supervision of vocational-level employees. Employee supervision includes hire recommendations, training, planning and assigning work, performance assessment, coaching, and progressive discipline. Supervision at this level also requires these employees to have the knowledge and skills to perform and review the work overseen.

Knowledge, Skills, and Abilities

In addition to those identified in the previous levels within this career path:

Comprehensive knowledge of and the ability to demonstrate understanding and successful interpretation, explanation, and application of all assigned areas of specialized trades and construction, as well as the laws, principles, and practices as they are related to implementation within the agency.

Comprehensive knowledge of and the ability to demonstrate understanding and successful interpretation, explanation, and application of the agency's policies, procedures, rules, and regulations in the performance of duties.

Comprehensive knowledge of and the ability to demonstrate successful operation and use of designated trades and construction equipment, parts, tools, supplies, and associated software systems in the performance of duties.

Working knowledge of and the ability to demonstrate successful use of computer equipment and associated software/databases in the performance of duties.

Working knowledge of and the ability to demonstrate understanding and successful use of the principles and practices of project management techniques in the performance of duties.

Knowledge of and the ability to demonstrate understanding and successful interpretation, explanation, and application of the principles and practices of supervisory and management techniques in the performance of duties.
