

## **Troop E - Frequently Asked Questions**

### **1.How do I schedule an appointment to have a child car seat installed?**

Call Troop E Headquarters at 573-840-9500 to schedule an appointment with one of our Public Information/Education (PIED) officers.

### **2.When can my child stop riding in a child car seat?**

**Missouri Revised Statutes Chapter 307 Section 307.179(<http://www.moga.mo.gov/statutes/c300-399/3070000179.htm>) states:** Each driver transporting a child less than 16 years old must secure the child in a proper restraint.

#### **Child Safety Seats**

Children under the age of four must be secured in a child passenger restraint system bearing a label indicating the restraint meets Federal Motor Vehicle Safety Standards of the **USDOT**.

#### **Booster Seats**

Effective August 28, 2006, Missouri law requires children to be transported in a booster seat if they:

- Weigh at least forty pounds, regardless of their age, or
- Are at least four years of age but less than eight years, or
- Weigh at least forty pounds but less than eighty pounds, or
- Are less than 4 feet 9 inches tall

If there is no combination lap and shoulder belt to accommodate a booster seat, then the child otherwise is required to ride in a booster seat may be transported in the back seat with only a lap belt.

When there are more children in the driver's immediate family than available seating positions, their children who are not able to be restrained using a child safety restraint device must sit in the back seat.

#### **Safety Belts**

Children at least 80 pounds or more than 4 feet 9 inches tall shall be secured in a safety belt or booster seat appropriate for that child.

*Note: The National Highway Traffic Safety Administration recommends that children under 12 years always ride in the back seat.*

The initial Radio Report for traffic related crashes that were handled by MSHP Troopers can be viewed **ONLINE** (<https://www.mshp.dps.mo.gov/HP68/search.jsp>) Bear in mind that these radio reports are not the *official* report but simply a summary of the officer's initial findings. The final detailed report may not be available for **at least 7 to 10 working days** after the date of the crash.

**9.What is the regulation about window tinting in Missouri?**

Vehicles registered in Missouri may have the windows to the immediate right and left of the driver tinted to 35%, plus or minus 3% or lighter transmittance. Any tint with less light transmittance on these windows would require a physician's prescription indicating a serious medical condition requiring the darker tinting. Windows behind the driver and the rear glass are not subject to tint limitations. The windshield is not to be tinted except that portion at the top, which is normally tinted by the vehicle manufacturer.
